Summary

A dedicated MCA student with strong technical skills in machine learning, web development, and database management. Experienced in building practical software projects using Python, Java, PHP, SQL, and modern web technologies. Skilled in problem-solving, data analysis, and developing user-friendly applications. Seeking opportunities to apply my technical expertise.

Skills

Programming Languages : Java , Python
AI & ML: AI Model Integration (Ollama), Gemini API, Data Visualization,Working With CSV,Excel
Web Technologies: HTML,CSS,JavaScript
Databases: MYSQL,SQL Queries JDBC Connectivity

Education

MCA(MASTER OF COMPUTER APPLICATION) August 2023-july 2025
  Sinhgad Institute of Management and Computer Application Narhe, Pune(Savitribai Phule Pune University)
   Percentage 65.86%

BCA (Bachelor of Computer Application) September 2021- July2023
  Shriram Institute Of Information Technology Paniv (Punyashlok Ahilyadevi Holakar University Solapur)
   Percentage 71.97%

.

Projects

PROJECT 1: **Stock Price Prediction**
 Front End: Python, ML, HTML, CSS
Database: MYSQL
Duration: 2 month
- Built an interactive Streamlit web app for real-time predictions

PROJECT 2: **Supermarket Management System**
 Front End: PHP, HTML, CSS, JavaScript
Database: MYSQL
Duration: 1 month
- Built a complete web-based system for managing products, billing, and stock updates.
- Reduced manual effort by providing automated invoice generation and stock tracking.

Project 3: Nutrition And Meal Planner
 Front End : HTML**,**CSS**,**Bootstrap **,**JavaScript
Backend: Java Servlets , JDBC (Database Connectivity)
AI & Tools
- LLM (Ollama / ChatGPT API / Local AI Model)
- Text generation for meals & shopping list
