CAREER SUMMARY

I am a passionate Software Developer with around 2 years of experience in building scalable and robust systems. Proficient in Java, Spring Boot, Microservices, and React.js, I specialize in developing REST APIs and resolving issues efficiently through logging, debugging, and AI-assisted tools. Experienced in Agile environments, I focus on delivering high-quality, maintainable code while driving innovation and collaboration to achieve project success.

TECHNICAL SKILLS

- **Languages & Markup**: Java, J2EE, SQL, JavaScript (React.js)
- **Frameworks & Libraries**: Spring Boot, Spring Security, Spring AI, JPA, React.js (JSX)
- **Architecture & Concepts:** Microservices, RESTful APIs, Object-Oriented Programming (OOP), Problem Solving, Assumption Handling, OAuth2
- **Databases**: Azure Cosmos DB, Oracle DB, MySQL, Redis
- **Version Control**: Git, GitHub
- **AI & ML Tools:** Spring AI, ChatGPT, Gemini, GitHub Copilot, Ollama (Offline), Grok, Gamma
- **AI & ML Skills:** Code assistance, code generation, debugging, documentation, automation
- **Tools and IDEs**: IntelliJ IDEA, Eclipse, VS Code, Maven, JIRA, Jenkins, Tomcat, Dynatrace, Splunk
- **Testing & Automation:** JUnit, Mockito, Cucumber (BDD)
- **Cloud Platforms**: OneOps, AWS, Azure
- **Operating Systems:** Windows, Unix/Linux
- **Other Skills:** Debugging, Unit Testing, Integration Testing, Job Monitoring, Shell Scripting

WORK EXPERIENCE

INDEXIAL SOLUTIONS – Java Developer   June 2023 - April 2025

1. Walmart (Client)

   Tech Stack: Java, Spring Boot, Microservices, Azure Cosmos DB, Kubernetes, ATG, Oracle DB, Jenkins, Splunk, Dynatrace, Git

   - Contributed to migrating a legacy ATG-based e-commerce platform to a scalable Spring Boot microservices architecture.
   - Developed and maintained backend services for Walmart, Sam's Club, and Bodega e-commerce modules, supporting thousands of concurrent users.
   - Created unit tests using JUnit and Mockito, and implemented integration tests using Cucumber (BDD) to ensure code quality and service reliability.
   - Monitored service performance and resolved production issues using Splunk and Dynatrace, improving system stability and response time.

2. School Website Development
   Tech Stack: Java, Spring Boot, React.js, HTML5/CSS3, Azure Blob Storage, Azure Cosmos DB, Redis, MySQL, Git
   - Developed a complete school website end-to-end, including the frontend with React.js and the backend with Spring Boot.
   - Integrated Redis and Azure Cosmos DB for efficient data processing and used Azure Blob Storage for secure file management (documents, images).
   - Built a fully responsive UI with React.js and modern HTML5/CSS3, improving accessibility and user experience across all devices.
   - Performed end-to-end testing across frontend and backend modules, identifying and resolving bugs to deliver a stable and high-performance application.

EDUCATION AND CERTIFICATIONS

- B.Sc. in Computer Applications, S.G.B. Amravati University   2025
- Summer Research in Programming, Amravati   2022
- Java Full Stack Development, Pune   2023

COMMUNICATION

- English   Professional Proficiency
- Marathi   Native, Fluent
- Hindi   Fluent

INTERESTS

- Playing chess
- Reading books and technical documentation
